Quick and easy cleaning
- QuickClean technology with polished sieve
- Pre-clean function rinses away the unwanted fibers
- Easily swipe away the fibers from the smooth surfase sieve
- All pulp collected in one place for easy disposal
- All parts are dishwasher safe

Easy to use
- Quick and easy assembly of all parts
- Drip stop to prevent juice from dripping

PHILIPS

Juicer
900 W QuickClean, 2.5 L, XXL tube, Drip stop

HR1869/80

Highlights

10% more juice
Thanks to the innovative juice extraction system with upside down sieve, the juicer squeezes every drop of your fruits and vegetables, creating a juice fountain. You get up to 10% more juice, compared to Philips' number one juicer HR1861.

Make 2.5 L in one go

Thanks to the innovative juice extraction system with the upside down sieve, this juicer extracts up to 10% more juice*. And depending on the type of fruit or vegetables one juices, it is possible to make up to 2.5 liters of juice in one go without the need to empty the pulp container.

900 W

Juice the toughest ingredients with a powerful 900 W motor.

XXL feeding tube

The 80 mm extra large feeding tube allows you to juice even large fruits and vegetables like apples, carrots and beetroots without pre-cutting.

2 speeds
2 speeds for soft or hard fruit and vegetables

QuickClean technology

The Philips juicer is designed for easy cleaning thanks to QuickClean technology. Cleaning is now as simple as rinsing , thanks to the pre-clean function and the QuickClean polished sieve.

Pre-clean function

The Philips juicer is the 1st centrifugal juicer on the market with a pre-clean function. By pouring water in the pusher, you can create a water fountain in the appliance, which rinses away the unwanted fibers from the lid and makes the sieve easier to clean.

QuickClean polished sieve

A lot of pulp fibers get stuck in a standard sieve which makes it very difficult to clean. That is not the case for the QuickClean polished sieve of the Philips Juicer, as all surfaces of the sieve are smooth. After pre-cleaning, you can easily swipe away the remaining fibers with a standard kitchen brush. The complete juicer can now be cleaned within a minute!

Integrated pulp container

The pulp will all be collected in the only place where it should be: in the pulp container of your Philips juicer. That means there is no need to remove pulp from other parts such as the lid anymore. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.
